R.C. No. 1176./Accts/52....., dated 22nd November, 1952

Sir,

SUB:- Police - Motor transport - Accident to Police Van
MDX-888 of South Kanara District - Repair charges -
Writing off - Sanction requested.

I send herewith a copy of report C.No.87/Camp/52, dated 10--4--1952 of the District Superintendent of Police, South Kanara on the accident to Police Van MDX.888 of South Kanara District. The matter was under correspondence with the District Superintendent of Police, South Kanara, regarding the loss sustained by Government with reference to Article 294 Madras Financial Code, Volume I. The District Superintendent of Police has reported that the loss is Rs.667-12-6 being the amount spent on repairs to the Van.

2. Repairs costing Rs.667-12-6 were carried out to the Van MDX-888 under sanction of the Deputy Inspector-General of Police, Western Range. With reference to article 300 Madras Financial Code, Volume I, the recovery of the loss from the person responsible was considered. As the case was treated as purely an accident on investigation, no one can be held responsible for the loss and the entire repair charges will have to be borne by the Government. I request the Government, therefore to write off the amount of Rs.667-12-6.

3. With reference to item 1 of appendix 23 Madras Financial Code, Volume II, I am competent to sanction the write off of irrecoverable items of Government money upto Rs.500/- lost through fraud, negligence or other causes. As the write off mentioned in paragraph 2 above exceeds my powers of sanction, I am submitting this for the sanction of the Government.

Letter C.No.87/Camp/52, dated 10-4-1952 from the District Superintendent of Police, South Kanara to the Inspector-General of Police, Madras.

Sub:- Police Van MDX-888 - Involved in an accident - Report - Submitted.

On 9-4-1952 at about 9-30 A.M. Police Van MDX 888 driven by Police Constable 546 Appoji was returning to Mangalore from the Mudushedde firing range with a party of 1 Jemadar and 12 Police Constables after firing practice. While coming up a slope and simultaneously taking a left corner at about 5 mile 1 furlong from Mangalore, the driver heard something snap near the left front wheel and the Van continued to go to the left in spite of his efforts to straighten its course in conformity with the road. The left front wheel entered a shallow drain and the van came to a halt with its left side resting against the raised portion of ground at the side of the road, both front and rear left wheels entering the drain.

2. Two constables in the van received minor injuries. The accident was at once reported at the Town Police Station (Mangalore East Station Crime No.29/52), registered and investigated. I visited the scene at about 12 noon prior to the Motor Vehicles Inspector's arrival. The latter's opinion is that due to the sudden snapping of the left front main spring leaf at both ends, the left front axle became separated from the chassis, the vehicle lost its balance and then swerved to the left. He does not think the accident was due to any rashness or negligence on the part of the driver and from my inspection of the same I agree. The ~~van~~ Vehicle could not have been coming at an excessive speed as it was an up-hill slope and, according to the Jemadar who was seated by the driver, the Van was not being driven so close to the left margin of the road as to go into the drain under normal circumstances. This is probable as the road was quite broad and the tendency when taking a left corner is to swing out to the right if anything. The road was clear at the time.

3. Damage to the vehicle consisted of (1) the left front brake hose pipe was cut and brake fluid leaked from the cylinder (2) left front axle 'U' clamps damaged, (3) left front mudguard crumpled and left sides of body badly scraped and (4) right front spring drag link rod and steering joints are damaged.

4. The case will be treated as an accident.
